

IMA – COM  
short course  
organized  
by  
NAWI–Graz  
and UZAG

**Topic:**  
**Mineralogy, geochemistry  
and ore deposits of  
Platinum group elements**

**Place:** Montan University of Leoben (AUSTRIA)

Department of Applied Geological Sciences and Geophysics

**Date:** from 28 of August to 1 of September 2010

(After the 20<sup>th</sup> IMA meeting in Budapest)

**Austrian organization:** A. Mogessie, C. Hauzenberger,  
O. Thalhammer & F. Zaccarini

**Hungarian Organization:** F. Molnar & T.G. Weiszbürg

**Preliminary List Of Possible Speakers:**

R. Bakker,  
C. Ballhaus,  
L. Cabri,  
N. Cook,  
G. Garuti,  
C. Hauzenberger,  
M. Ohnenstetter,  
A. McDonald,  
T. Meisel,  
A. Mogessie,  
F. Molnar,  
O. Thalhammer,  
F. Zaccarini.

**The course will include:**

- ❖ Description of the most important PGE deposits, their genesis, mineralogy and geochemistry.
- ❖ Practical sessions: optical microscopy, electron microprobe, raman spectroscopy.
- ❖ Field trip to mafic ultramafic massif of Kraubath
